CORPORATE SUPPORT

Corporate support provides CDT with the capacity to continue its work to maintain an open, innovative and free Internet. CDT is known's for the depth of its knowledge of technology and legal issues. But our success also lies in our ability to translate complex issues into language that stakeholders and decision-makers can understand.

We understand that the answers do not lie in regulation alone, For that reason, CDT works with

industry partners to develop best practices and build multi-stakeholder coalitions to tackle tough problems. CDT offers its corporate partners with opportunities to convene with issue stakeholders on a regular basis, and come to consensus on policy recommendations in these key areas:

- Free Expression
- Consumer Privacy
- Health Privacy
- Security and Freedom
- Copyright
- E-Government and Open Government
- Open architecture and standards
- Global Internet Freedom
